THE RALEIGH NEWS

VOL. XIII--NO. 67. RALEIGH, N. C., THURSDAY MORNING, MAY 16, 1878. $5.00 PER ANNUM

FORTY-FIFTH CONGRESS.

By Telegraph to the News.

WASHINGTON, D. C., May 15.—SENATE.—Christiancy, of Michigan, from the Committee on Revision of Laws, reported back the petition of Robert G. Ingersoll and others, asking a repeal or modification of certain provisions of the revised statutes forbidding transportation through the mails of certain matter, pictures, &c., and moved its reference to the Committee of the Judiciary. So ordered. This is the petition presented some weeks since favoring the repeal of the law.

Ferry, of Michigan, from the Committee on Post-offices and Post Roads, reported a bill regulating compensation for transportation of mails on railroads, providing for classification of mail matter, and for other purposes. Placed on calendar.

Eustis, of Louisiana, introduced a bill to provide for the establishment of mail steamship service between the United States and Brazil. Referred to the Committee on Post-offices and Post Roads. The provisions of the bill are the same as those of the amendment to the Post-office Appropriation bill submitted by Mr. Maxey, and ruled out yesterday upon the point of order raised by Mr. Edmunds.

HOUSE.—On motion of Mr. Wood, of New York, the consideration of the resolution for final adjournment was postponed until May 29th. A division on seconding the previous question on Potter's resolution showed the presence only of 118 Democrats, 29 less than a quorum.

The House proceedings to-day were a repetition of those of yesterday, the only exception being that the Senate concurrent resolution for a final adjournment was taken up, and its consideration postponed till the 29th of May. This was in execution of the policy decreed in the Democratic caucus of yesterday. When it came to the question of seconding the previous question on Potter's resolution of inquiry into the alleged frauds in the presidential election, the Republicans fell back upon their manœuvre of withholding their votes, leaving the House apparently without a quorum, as the Democrats were only able to muster 121 votes, 25 less than a quorum. After some unimportant moves on the parliamentary chess-board, the Democrats realized their inability to make any progress in the matter of the resolution, and moved to adjourn, which motion, after being once defeated on a yea and nay vote, (many Democrats voting with the solid Republican phalanx), was finally carried in. Immediately thereafter the Republicans met in the Chamber, for the purpose of consultation. The announcement of the call for the meeting was greeted by the Democrats with decisive jeers and laughter, and with counter demonstrations of triumph and defiance by the Republicans. The result of the Republican caucus was the adoption of a resolution characterizing the Democratic movement as revolutionary, and subversive of the business interests, good order and prosperity of the country, and that it must be resisted by all proper, legal and parliamentary means we are now, as ever, exposed to the payment of claims from the National Treasury to those lately engaged in or sympathizing with the rebellion. No conqueror should be forced to pay indemnity to the conquered, and the presentation of bills demanding over three hundred million dollars at the present session of a Democratic House, is a warning to the country of the cost and danger of retaining in power a party whose chief aim is to make reprisals on the tax payers for losses which the crime of treason brought upon the Southern people.

Henry W. Palmer was nominated for Governor.

Henry M. Hoyt, nominee for Governor, delivered an address and the Convention adjourned *sine die*.

RESOLUTIONS.

Capt. Peebles offered the following resolution, which was adopted:

Resolved, That we have witnessed with alarm the tendency of the Federal Courts to encroach upon the jurisdiction of the State Courts, and the growing power and constantly increasing influence for evil of the great moneyed corporations, both foreign and domestic, and especially the unjust and oppressive discriminations by common carriers against local passengers and shippers of local freights. And while we do not desire to form our Supreme Court of men who would decide questions of law from any motive other than a desire to interpret the law correctly, yet we do sincerely desire and hope that men will be placed on our ticket whose sympathies on these important questions are in accord with the sentiments and interests of the people.

It was moved that the old county Executive Committee be re-elected. It is composed of the following gentlemen: R. B. Peebles, chairman; S. J. Wright, secretary; W. C. Bowen, Dr. J. C. Jacobs and T. W. Mason.

LABOR RIOTS IN ENGLAND.

Cotton Operatives on a Strike --A Serious State of Things Existing-Blackburn, Accrington, Burnley and Manchester in Tumult.

By Cable to the News.

BLACKBURN, ENG., May 15.—The infantry and cavalry cleared the streets, but great destruction was committed before their arrival. Col. Jackson and his wife barely escaped in a cab. Alderman Hornby was injured, being struck by stones, while remonstrating with rioters.

This riot took place last evening and was the direct result of the failure of negotiations between the master spinners and representatives of the operatives.

There were also riotous demonstrations at Accrington and serious breaches of the peace are still apprehended there.

EUROPEAN NEWS.

By Cable to the News.

LONDON, May 15.—The greatest secrecy is maintained regarding Count Schouvaloff's visit to St. Petersburg. Many versions are current here, in St. Petersburg and elsewhere, but are doubtless more or less plausible hypotheses.

A *Times* special from San Stefano says: "All troops here will move within a few days into camp or on a rising ground, ten miles and a half north of Constantinople."

ST. PETERSBURG, May 15.—It is rumored here that England is sending 30,000 men from India to Lak Van to threaten the Russians in the Caucasus.

Negotiations Fail--Populace Goes Wild.

By Cable to the News.

LONDON, May 15.—The operatives are on a strike in Lancashire, and are greatly exasperated at the refusal of masters to compromise when the representatives of the operatives left the meeting. At Manchester yesterday, when no compromise was arrived at, they indicated that the leaders would not be able to longer restrain the men, and disclaimed all responsibility for what might happen in the striking districts. When news of the decision reached Burnley, thousands of people assembled in the streets, hooting, shouting, and smashing windows. A mass meeting will be held there to-day, and serious trouble is feared.

THE PENNSYLVANIA REPUBLICANS.

Assembled in Convention.

By Telegraph to the News.

HARRISBURG, PA., May 15.—The Republican State Convention was called to order at 10:30 by Chairman Wilson. After the roll was call J. N. Purviance, of Butler, was elected Temporary Chairman. On taking the chair he said that the mission of the Republican party was not yet ended and would not be until unity and peace had been established in all parts of the country. A committee of 7 on contested seats, and a committee of 50 on permanent organization were appointed.

The resolutions declare the Republican party of Pennsylvania is opposed to free trade in whatever disguise presented, and is unchangingly devoted to home industry, and hereby avows its special and direct hostility to the tariff bill now pending in Congress, the same being in the interest of importers and foreign manufacturers, and in opposition to American labor. Second Day--Morning Session Concluded.

ILL TREATMENT.

Henry Grant, Sr., said: some eight or ten days before the death of Mrs. Thompson, a conversation took place at my house between Thompson and myself, about some rents. He said his wife received all the rent. He then remarked "there is a day coming for me." Once I was in a field where my folks were at work, about two years ago, it was near the road. I heard quarreling, looked and saw Thompson and wife in a buggy. When they reached the bridge Thompson threatened to throw his wife out, I didn't understand the fuss distinctly. When I first heard it they were two hundred yards off. They were going to my house. When they got on the bridge Thompson attempted to throw his wife out of the buggy. I immediately showed myself, then 20 steps off, and the fuss stopped. Thompson was sober then. At my house they acted peaceably. [Note. It appears that Mrs. Thompson controlled the property, received rents etc. Reporter.]

THOMPSON THREATENS TO KILL HIMSELF.

J. J. Casey said: I have heard Mr. Thompson make threats about his wife. About 1st August, 1876, Thompson and I were together; he said, "Jack, I am going to kill myself, but before I do this I am going to kill Celia and somebody else." He continued, "I want some smart man to see that I am buried under the cedar tree in front of my house." Thompson was not drunk then. He and his wife did not live together at that time.

MORE UNKIND TREATMENT.

Mrs Silvia Goodson said: I lived at Waitman Thompson's about 3 months; this was nine years ago. Thompson's conduct was not good; he would abuse his wife, curse her and quarrel with her. On one occasion, eight years ago, when on a visit, I heard him curse and abuse his wife, and saw him throw a crutch at her; she ran outdoors. They had been married at this time about three years. About one year after this I went home with Mrs. Thompson. When we reached the house Thompson said to his wife, "If you don't leave here I will give you the worst beating you ever had." She and I left. Once I heard Mrs. Thompson say to her husband that he attempted to kill her. He replied, "You lie." This was about two years ago, and Thompson was sober then. When he threw the crutch at her he was drunk, but when he ordered her to leave the premises he was sober.

CROSS EXAMINED—I am the cousin of the late Mrs. Thompson; she and I were raised together.

A YOUNG GIRL TESTIFIES.

Miss Ezara Strickland said: I am going on 14; Levi Strickland is my father. I have staid at Mr. Thompson's; boarded there three or four months and went to school; this was in the fall of 1876. Mr. Thompson was always cursing and abusing his wife. One night I was there Mrs. Thompson jumped out of the door and pulled me out with her. She cried out, "Lord have mercy, he will kill us." We went to Mr. Furney Harrell's and staid all night; this was about 9 or 10 o'clock. Mr. Thompson was drunk that night, and was generally so when cursing and abusing his wife. We staid in the same room that night.

CROSS-EXAMINED—We had to leave home several times. When drunk Mr. Thompson would curse and abuse his wife. I can't tell how many times he was drunk, it happened so often. I am no kin to deceased.

MORE THREATS—MRS. THOMPSON LEAVES HOME.

James H. Grant said: About twelve months before the death of Mrs. Thompson I heard Mr. Thompson say, "I am going to kill my wife and myself, but before killing myself or wife I intend to kill some one else. I want you to see that I am buried under a cedar tree in my yard. He had been drinking, but was not drunk. Another time, at John Vinson's, I heard a gun fire, and a fall on the floor. Before I heard this Thompson had said, at Vinson's, that he was going home and kill himself. He had been drinking that day. I heard his wife scream. Vinson and I started to his house; on the route we met Mrs. Thompson about half way; she was barefooted, her clothes were not fastened on her person and no bonnet on. We went on to Thompson's house and found him in bed laughing. There was a sign of shot in the upper floor. The gun was lying on the floor. Mrs. Thompson returned home and staid with her husband all night. She asked me to stay in the house which I did. Dick Sullivant staid with me. After going to bed I heard something like slaps on the naked body. I heard Mrs. Thompson cry out, "Please stop; don't, oh don't."

ATLANTA CONFERENCE.

North Carolina and Holston Conferences not Disturbed.

From our Special Reporter.

TWELFTH DAY.

ATLANTA GA. May 14th, 1878.

The General Conference convened at 9 a. m., and was opened with religious services conducted by Dr. C. W. Miller of Kentucky. Bishop McTyeire presided to-day. We are always glad when his day comes to preside. He is such an excellent presiding officer. Leave of absence was asked and obtained by two members.

THE DIVISION OF THE N. C. CONFERENCE.

I informed you by telegram to-day that no division of the N. C. Conference will be made. As a great many of your readers are interested in this question I will enter into particulars. There are some 6,000 members of the M. E. Church, South, in Western North Carolina who belong to the Holston Conference. I was prepared to transfer these members to the N. C. Conference and then divide the N. C. Conference into two conferences, and a memorial asking such transfer and division, from the N. C. Conference, was presented and referred to the committee on Boundaries. After investigating the matter thoroughly it was found that over half of the 6,000 members in Western North Carolina were opposed to being transferred, and there was a difference of opinion among those favoring division, as to the proper boundaries, and in a joint meeting of the N. C., and the Holston delegations it was *unanimously* agreed to withdraw the memorial of the N. C. Conference and not to attempt to divide the Conference at all; and in accordance with this action Dr. Wilson of N. C., withdrew the memorial mentioned above. So the question is settled at least for four years.

REPORTS OF STANDING COMMITTEES.

When the call was made for reports of standing committees, several reports were presented and laid on the table until they could be published. When they are considered again I will notice them.

Several reports taken from the table were discussed and adopted but as none of them proposed a change in the law, but rather the contrary, I will not notice them particularly. A report from the Committee on Revisals, recommending that the Quarterly Conference records be submitted to the District Conferences for review and correction, provoked quite an animated discussion. During this discussion, Dr. Wilson, of North Carolina, made a forcible speech in opposition to the report and was listened to with great attention. Dr. Edwards, of Va., rose and stated that Dr. Wilson had expressed his sentiments and we heard several say the same around him. Several other speeches were made, some for and some against the report. The report was not adopted.

A report from the Committee on Revisals, recommending that a course of study be specified for persons applying for local preacher's license, after a protracted discussion, was not adopted.

THE FRATERNAL DELEGATES.

The Fraternal Delegates of the Northern Methodist Church are in the city, and the General Conference has fixed next Thursday at 10 o'clock a. m., as the hour for their reception. This event is anticipated with much pleasure and interest.

PERSONAL.

Rev. P. J. Carraway, of the N. C. Conference, is in the city and was in the Conference room to-day.

ELECTORAL INVESTIGATION

Potter's Resolution.

The following is the full text of the preamble and resolution on Florida frauds introduced by Mr. Potter (Dem., N. Y.) in the House on the 13th inst:—

Whereas, The State of Maryland has by its Legislature, formally declared that due effect was not given to the electoral vote cast by that State on the sixth day of December, 1876, by reason of fraudulent returns in the electoral votes from the States of Florida and Louisiana; and

Whereas, An affidavit by Samuel B. M. Lee, Chairman of the Board of State Canvassers of the State of Florida for the election held in that State in November, 1876, for electors of President and Vice-President has been made public, alleging false and fraudulent returns for votes for such election in that State, whereby the choice of the people of that State was annulled and reversed, and that the action of the Board of State Canvassers in making such returns was influenced by the corrupt and promises of the Hon Edward F. Noyes, now Minister to the Government of France; and

Whereas, It is alleged that a conspiracy existed in the State of Louisiana, whereby the Republican vote in the precincts of the parish of East Feliciana and in some precincts of West Feliciana at the general election in November, 1876, was purposely withheld from the polls to afford a pretext for the exclusion by the Returning Board of that State of the vote cast in those precincts for electors of President and Vice-President, and that James E. Anderson, the Supervisor of Registration of East Feliciana, and D. A. Weber, Supervisor of Registration in the parish of West Feliciana, in that State, in furtherance of that conspiracy falsely protested that the election in such precincts had not been fair and free, and thereupon State Returning Board threw out illegally and fraudulently returns in favor of the said precincts and by means thereof and of other false and fraudulent action by the said Returning Board, the choice of the people of that State was annulled and reversed, and that said rejection of the said Weber and Anderson was induced and encouraged by the assurances of the Hon. John Sherman Secretary of the Treasury of the United States; and

Whereas, The gravity of these charges the nature of the evidence upon which they are asserted to be based and the official dignity and position of the persons named in connection with the said frauds make it proper that the same should be inquired into, to the end that the honor of the nation may be vindicated and the truth as to such elections be made known; therefore, be it

Resolved, That a select committee, consisting of eleven members of this House, be appointed to inquire into the aforesaid allegation as to the persons in office aforesaid in respect of the said election, and into the alleged infamous fraudulent canvass and return of votes by State, county, parish and precinct officers in the said States of Louisiana and Florida, and into all the facts which in the judgment of said committee are connected with or pertinent thereto, and that said committee for the purpose of executing this resolution, shall have power to send for persons and papers, to administer oaths and to take testimony, and, in their discretion, to detail sub committees who like full authority of said committee in every particular, and with power to sit in Florida and Louisiana, which sub-committees shall be committees of this House, and the chairman thereof shall be authorized to administer oaths; that the said committee and sub-committees may employ stenographers and be attended each by a deputy sergeant-at-arms, and may sit during the sessions of this House and during the vacation, and that said committee proceed in this inquiry and have leave to report at any time.

Dr Richard Anderson, of Albemarle, resigning his membership, which was referred to a special committee of three to investigate; and Dr F T Fuller, of Raleigh, applying for membership; referred to Committee on Credentials.

PAPERS READ—REPORTS OF CASES.

Dr Wm Little, of Raleigh, read a highly interesting and well prepared paper on a case (occurring in his practice) of Suppression of Urine, of ten days' duration. As this was a case of unusually rare occurrence, it elicited considerable discussion; participated in by Drs Moore and Duffy. The paper was referred to the Committee on Publication.

Dr Lane made a verbal report of a "Psoriasis Vulgaris," as mentioned in the report of the New Hanover Medical Society, which was successfully treated by the use of "Goa Powder." Dr Wood confirmed the opinion of Dr Lane as to the efficacy of "Goa Powder" in the treatment of the disease just mentioned. Dr Moore, of Charlotte, asked for a history of the case, which was given in detail by Dr Lane, who, however, stated that this remedy was used in connection with others of a known character, particularly Potass Iodide.

Dr O'Hagan also made some interesting remarks in relation to the origin and use of the "Goa Powder" in the treatment of "Psoriasis Vulgaris, Punctata, and Guiana." Dr. O'Hagan attributed the active curative principle to carbonic acid.

FINANCIAL REPORT.

Dr T D Haigh, from the Finance Committee, made the following report: To the Medical Society of North Carolina; We, the Finance Committee, have examined the Treasurer's books, and find the Society out of debt, and with $203.71 on hand. We, therefore, recommend that the annual per capita assessment be one dollar. The report was adopted.

REPORTS OF CASES.

Dr. O'Hagan reported three cases of Lithotomy; he exhibited a stone, three inches in diameter which was removed by the Lateral operation, in the first case, followed by peritonetis of a severe grade; the second case gave rise to considerable difficulty in the extraction of the calculus, necessitating the Bilateral operation; the third case was in the person of a child nine years of age, the removal of the calculus being effected by the Median operation.

Dr. O'Hagan discussed the subject of urethral stricture, stating that he believed that most cases of retention were caused by urethral stricture.

Second Day--Morning Session.

GOLDSBORO, May 15th, 1878.

Convention assembled at 9 a. m., Dr. Payne in the chair.

Dr. Schaffner, from the Special Committee, recommended that Dr. Anderson's resignation be accepted. Carried.

SECTIONS INSTITUTED.

Dr. Shaffner asked, in order to facilitate business, that the following resolutions be adopted:

Resolved, in order to systematize our work, and facilitate the transaction of business, there shall be instituted a series of sections, as follows: A section on surgery and anatomy; one on obstetrics and gynecology; one on the practice of medicine; another on materia medica and therapeutics; and one on microscopy and pathological anatomy.

Be it further resolved, That there shall be appointed at each annual meeting of the society, a chairman of each section, such chairman to be selected by the president from those who exhibit a preference for any given section.

And finally, That all essays, papers, and communications be submitted to the annual meetings of the society by the respective chairmen of each section. Passed.

COMMITTEE ON NOMINATIONS.

The President announced the following Committee on Nominations: Drs. G. A. Foote, W. A. B. Norcom, W. C. McDuffy, J. J. Summerell, R. H. Speight, and W. T. Ennett.

DIPHTHERIA AND ITS TREATMENT.

Dr. Charles Duffy, of New Berne, read, as appointed, an essay on "Diphtheria and its Treatment." The essay was a most complete and valuable paper, showing great research and patient and industrious investigation. It was listened to with the good attention it deserved, and at its close Dr. Norcom moved that the thanks of the society be tendered Dr. Duffy, and that the essay be referred to the Publication Committee. Carried.

Dr. Norcom, nevertheless, thought that Dr. Duffy had omitted a remedy in his treatment, now much in vogue, which remedy was "thyroid."

Dr. J. K. Hall, in continuation, also read a paper on the subject.

Dr. McDuffie, of Cumberland, made a few interesting remarks on the subject, detailing cases in his practice of "pharyngial paralysis," in which he kept the patients alive for some time by rectal alimentation.

Dr. T. D. Haigh entered into the discussion of the treatment of the disease. He thought to remove the local trouble was an important factor in the treatment, as cutting off the material detrimental, to be absolved in the blood.

Dr. Potter discussed the subject at length; had considerable experience in the disease, and noticed that it always occurred near mill ponds.

Dr. Thomas J. Moore, of Charlotte, agreed that malaria is associated with and affected by, and thought that Quinia should be largely used. His observation had led him to the conclusion that it is not confined to malarial regions, and thought that local applications are hard to make in young patients, and that some saccharine element ought to be used, as well as steam applications, which he regarded as indispensable. Dr. Moore reported cases in his practice in young children, and one in a lady, who at the time was nursing an infant.

Dr. Bahnson was glad that some one agreed with him that the disease was enveloped in mystery. He believed that quick lime continuously sprinkled on the floor destroys the evils of the sputa, and prevents other cases from being so malignant. He thought that Tracheotomy in laryngial complications ought always to be performed, even if a small per cent only is saved by it. He mentioned several fatal cases in his practice after the operation. Dr. B. sucked hastily, without thought, through a tube in the larynx and was affected by diptheric patches, and was satisfied that the membrane is communicable.

Dr. Joseph Graham, of Charlotte, thinks that the disease is infectious, propagated through the atmosphere and by contact. He has had considerable experience; has not been satisfied with any book treatises, and said many cases would get well without treatment, while some will die with the best treatment. He related some cases in which a father contracted the disease by the child's breathing into his mouth, and related a case in which he believed buttermilk cured the patient. The doctor maintained that if a patient vomits without nausea he will die in less than five days, and thinks the patches have nothing to do with the malignancy of the disease. He had been affected in the same manner as was Dr. Bahnson.

Dr. O'Hagan did not agree with Dr. Graham, and he spoke of the antiquity of the disease, its cause, development and course, and said treatment was exceedingly valuable, necessary and must be appropriate. The first affection should have prompt attention to arrest the disease. He thought mild local applications of prime importance and that Tracheotomy is useful, but, to be successful, must be performed at an early period before the bronchii are invaded, and that every effort to save the case should be made to the last.

Dr. Wood dwelt particularly on the use of Chloral Hydrate to be applied by steam atomization, it proving a valuable agent in his hands. He said the patient would submit to this rather than to gargles.

Dr. Norcom said no treatment could be relied on unless it was stimulative.

Dr. Murphy thought food and stimulants the main bulwarks in the treatment. The Doctor had used the stomach pump, putting food directly in the stomach, and kept the patient alive for thirty days. He says give by enema to the last.

Dr. Hines holds that tracheotomy is out of place; bad surgery; not justifiable; and will not cure the disease, regarding it as constitutional, and the throat symptoms as only a local manifestation.

He was replied to by Dr. Bahnson, who insists on the operation to prevent asphyxia.

Drs. Summerell and Moore also believe in the operation.

SUBJECT FOR NEXT MEETING.

The President appointed the following gentlemen the committee for the selection of a subject for discussion next year, and the essayist: J. K. Hall, T. T. Wood and G. W. Graham.

Drs H T Bahnson, G G Smith and D W Bullock, compose the committee on Time and Place of meeting.

The morning hour having expired the convention adjourned to 3 o'clock, p. m.

BOARD OF EXAMINERS.

The board of examiners is also in session and several applicants will come before it. The gentlemen below named constitute the board: Drs G A Foote, Charles Duffy, C T Murphy, C J O'Hagan, W A B Norcom, J W Jones, and R L Payne.

THE GROWLERY.

Fair Play is a Jewel!

It is an established principle of the Democratic party that majorities must rule. It is another well-known rule of the party that when nominations for office are made in caucus, the will of the majority must prevail. When men go into caucus they bind themselves to abide by the decision of the majority. If men were allowed to go into caucus, and then draw out, because *their* candidate wasn't chosen, it would be a pretty jug-handle affair, like saying—"Heads, *Lucin;* tails, *you lose*."

The reason the Democrats hold caucuses is to find out which of the candidates is strongest in our own party. But it seems that since the big example (of refusing to submit to a fair majority), which defeated Gov. Vance for Senator in 1872, the same thing is to be tried on a small scale.

Look at the facts about this city election! Mr. Job Osborn, a plain, sensible, practical man, with long experience, and undoubted fitness for the place, was nominated for Street Commissioner. He hadn't made any effort for the position, nor any "combinderies;" but he is well-known as a good citizen, a tax-payer, and a man of integrity; so when the caucus came to vote, he received six votes out of the eleven. Of course, this being a majority of the whole, he was entitled to the nomination. This was on Friday night. But, lo! it didn't suit some folks, so they got up a fuss, and collected the cancus again. But there was so much fuss made over it that Mr. Osborn withdrew. This was a patriotic and gentlemanly thing in him; for he would not be a cause of contention and division in the party—not for twenty such offices.

But here comes in the question—If majorities ain't to rule—had'nt we better give up all caucuses, and disband the party? If a few men are to control things—and rule or ruin—what encouragement has any honest man to work for the party? I am a true-blue Democrat, but I believe that "Fair Play is a Jewel." Osborn ought to have that office.

TAX-PAYER.

JUDGE SCHENCK.

His Popularity in the West.

Correspondence of the News.

FRANKLIN, N. C., May 10, 1878.

While we do not intend to dictate to our brethren of the east or centre, whom they shall nominate for Chief Justice and Associate Justice, I but express the sentiment of the virtuous and good Democrats of the 9th District when I say that they will earnestly and faithfully support the Hon. David Schenck, of Lincoln, for the position of Associate Justice of the Supreme Court, and those gentlemen of the east, who either from misrepresentation or selfish purposes are traducing him, will learn when the time comes, that he is still dear to the hearts of our people.

THE ORDEAL THROUGH WHICH HE HAS PASSED.

He has been subjected to the most fiery ordeal that ever man passed through and though he may have committed errors in judgment or been misled by others to make mistakes, yet his pure moral character, his integrity as a judge, his learning as a lawyer and his devotion to constitutional liberty and his fidelity to the Democratic party are as bright and prominent as before the contest came; and when the facts and circumstances shall be made known the people will see he has been persecuted and has had the dignity and faith to bear it with patience, trusting in the invincibility of truth and the good character which he bears among all who know him.

COUNTIES DECLARING FOR SCHENCK.

Already have the counties of Graham, Cherokee, Clay, Macon, Swain, Jackson, Haywood and Henderson declared for Judge Schenck and Buncombe, Madison and Transylvania will soon follow, and the Asheville *Citizen*, a power in the west, comes out for his nomination. Add to these McDowell, Lincoln, Cleaveland, Gaston, Caldwell and Alleghany which have held meetings and declared for him, and it will be seen that he is the choice of the west and that the white Democrats of western North Carolina, whose votes have saved our eastern friends from Radical and negro rule, have the right to demand of them that they come to his support. We need harmony or we suffer defeat, and we can only have it by mutual confidence and support.

A LAWYER OF THE 12TH DIS.

The South for Peace and Union.

New York World.

Under the protection of Grant's administration, of which Senator Conkling was a trusted counselor, the people of two Southern States, Florida and Louisiana, were deliberately robbed of their votes for the Democratic electors, and the machinery was set in motion which resulted in the Electoral Commission and eventually in the inauguration of Mr. Hayes. The Democrats of the South protested against the outrage perpetrated upon the electoral franchise, in all imaginable forms. They looked—as had they not a right to look?—to the leaders of the Northern Democracy and to the candidate whom they, the people of the South, had elected, to uphold the threatened sanctity of the ballot and see justice done. They looked in vain. Were they to assume the initiative of civil war for the assertion of results achieved by their peaceful ballots? Had they desired disunion rather than union, strife rather than peace, then was the time to have shown it. They did not desire disunion, they desired union. They did not desire strife they desired peace.

Civil Service Reform.

Washington Post.

The story is that Schurz, when called upon for his campaign assessment of $50, told the committee to draw on him for two speeches, at $250 a night. He said that owing to the hard times and the need of retrenchment in all departments, he would throw off $50 from his regular price, which is $300.

THE Honorable Mr. Noyes, Minister to France, will doubtless enjoy the reading of the Potter resolutions.

A FENIAN raid might possibly act as a safety-valve for the Communistic spirit now effervescing in various parts of the country.

IT is not very creditable to the Democrats in Congress, that the Potter resolutions for investigating the electoral frauds, failed to promptly pass, for want of the presence of the Democratic representatives in the House.

MR. John Sherman, Secretary of the Treasury, reads well in the Potter resolutions. The period of his coquetry with Mrs. Eliza Pinkston, at New Orleans, will furnish a bright chapter in the life history of this modern minister of "feenance."

THE Southern States are now the most conservative, law-abiding and peaceful part of the Union. Property is safer here than in the North and West. Communism and Fenianism and Socialism are wretched isms of foreign growth that find no place on our soil.

IT is not much respect or consideration for President Hayes that the country can now entertain, since it has been demonstrated that he was fully acquainted with the methods which counted him in, as is illustrated by the manner in which he has rewarded every one of the scoundrels connected with the electoral frauds.

THE Hillsboro *Recorder* thus faithfully epitomises the Republican party:—Whatever tends to the maintenance of high taxes, to oppressive internal revenue exactions, to derangement of finances, to scarcity of currency, is the work of the Republicans. They not only do not try to give relief. They glory in adding burdens. The Democratic party proposes and urges measures which will give relief if they can be carried out.

DR. EDWARD WARREN, (BEY,) has been honored with an appointment as medical attache to the staff of Governor McCormick, United States Commissioner to the Paris Exposition. Dr. Warren is now residing in Paris, engaged in the practice of his profession, and doing well, we understand. He won high honors while in the service of the Khedive of Egypt. His chequered, adventurous career, is watched with much interest by his friends here.

THE desperate condition of the laboring people of the old world, and the position into which unwise government has placed the manufacturing, commercial and industrial interests of both continents, must be palpable to every one who reads the dispatches from England this morning. Just how far responsibility for all this rests upon the Republican party and its legislation in this country for the past fifteen years, is matter for future determination.

ON the subject of primary party organization the Alamance *Gleaner* pertinently remarks:—

If conventions are controlled and their action shaped by the will of a few the people have their own carelessness and inattention to blame for it and nothing else; and being themselves wholly to blame, they should not be heard in their mutterings of discontent.

Let these facts be borne steadily in mind. It is poor policy for the people to remain away from the primary meetings and then complain that "the cards are stocked" on them; and then either bolt the nomination, or give an uncertain support to the ticket. Better take a hand and assist to give a satisfactory direction to local public affairs.

Narrow-Gauge Railroads for the West.

In selecting their representatives to the Legislature, the people of Western North Carolina should look well to it, that they send none who have not the will and the capacity to push their railroads through the mountains.

It is a standing disgrace to the State that an empire of wealth and power like that of our transmontane, should remain practically closed to the world; and it is a misfortune, not to be measured, to the people of that great section that their interests lies prostrate and languish for the want of railroad communication to develop a wealth of natural resource of more magnificent proportions than is possessed by any other State of the Union.

It is to be hoped that the subject of narrow-gauge railroads will take hold of the minds of the people of the west and occupy the intelligent attention of the Legislature at its next session.

It will be the pleasure of the NEWS to present some facts in regard to the construction of these railways, their cost, facilities for business, and the experience of those sections which have adopted and tested them. For our mountainous country they are entirely practicable, and for that section the most feasible, and certainly more readily attainable in the present depressed condition of affairs.

Narrow-gauge railroads have been constructed, put in thorough running order, and fully equipped for large traffic in the mountains of Pennsylvania, for an average of $12,000 per mile, including engines, cars, depots, stations and everything pertaining to a complete railroad.

Why it is that we have not adopted them long before, instead of expending so much money, time and labor on the broad-gauge system, it is not worth while now to stop and enquire. But seeing our mistake, as a mistake it certainly is, let us go to work and correct it. It is entirely practicable to go to work now and complete a narrow-gauge road from Nashville to Ducktown, before the other route, with the labor and expense necessary to put upon it, can reach Paint Rock.

There are other portions of the west languishing for railroad facilities, and it is for these to also consider the matter of the narrow-gauge if they hope soon to realize their wants and hopes.

Death of William A Wright. Esq., of Wilmington.

Special dispatches yesterday brought the painful intelligence that William A. Wright, long the most prominent citizen of Wilmington, died in that city at an early hour yesterday, of congestion of the lungs.

In a section of the State noted for the culture, refinement, intelligence and sterling worth of its people, it is no disparagement of any of them to say that William A. Wright stood at the very head of the list. In point of enterprise and public spirit, from early manhood he had been without scarcely a peer in the State; and the position assigned him in the profession of the law, before his death was "the head of the bar."

It is worth while to turn aside from the busy scenes of everyday life, and pause in contemptation of what society and the public loses when such a man as William A. Wright dies. It is profitable to look back and count how much the world has gained by his having lived in it.

Here was a man who, practically never held political position, who accomplished the work of his life in the private station. Except as a member of the Council of State and a delegate to the Constitutional Convention of 1865-'66, it is not recalled that Mr. Wright occupied any position in what is termed public life; and whatever of public reputation he acquired, was won in his profession and in the ranks of the great working, business men of the country, of which North Carolina has had too few.

Wm. A. Wright was one of the fathers of internal improvement in our State. He was one of the original incorporators of the Wilmington and Weldon Railroad, and from the very first day of its existence, of now near forty years, he has been a continuous Director in the company, so that at the time of his death he was said to have held the longest uninterrupted railroad connection of any one now living in the United States.

He had been President of the Bank of Cape Fear, and chairman of the county ocurt under our old system. Public spirited, he was connected with every movement that looked to the improvement of his State and section. Wilmington, with all her enterprise, the foster-mother as she is of the North Carolina system of railroads, never possessed a more enterprising citizen than Mr. Wright; and now, at a time when she is seeking the improvement of her harbor, and contesting with other ports for commercial importance, she will sadly miss one who was never wanting in wise counsel, energy and action, where the commercial advancement of his city and section was under consideration.

He was a genial gentleman of the old school; one in whom the amiable qualities of mankind were always, and to every one, manifesting themselves, and, no less an ornament to the society in which he moved, than a valuable citizen to the State and city whose material interests he had so long served faithfully and well.

It is a doubly painful affliction to the family and friends, that Mr. Wm. F. Potter, his son-in-law, lies very low with consumption, and his death hourly looked for.

The Fenian Folly.

There appears now to be some real foundation for the Fenian excitement which is daily growing and spreading in the States along our Northern border and in the Southern provinces of Canada. The Fenian threats are regarded so seriously by the Canadian authorities that they are making every preparation to resist invasion. A portion of the volunteer militia has been put in the field at the various strategic points along the United States frontier. Batteries of Artillery are being placed in position; ships of war are making ready for service on the lakes and rivers; the troops are receiving supplies of ammunition; in brief, Canada is up in arms to meet an impending attack.

The folly of this contemplated Fenian movement or raid is something that passes comprehension. Success in their wild undertaking is an utter impossibility. Defeat, sure and overwhelming, would inevitably befall their proposed insane invasion of the Dominion territory. A comparison of the relative strength of the contending forces, in the event of hostilities, is sufficient to point conclusively to the disastrous result above indicated.

The Fenian forces, according to the statement of their ostensible leader, are set down at one hundred thousand men. Granting, for the sake of argument, that this is not an over-estimate of the number of lunatics-at-large, who have engaged to participate in or sustain a Fenian raid across the border, it is safe to calculate that not more than one-fourth of these are to be relied upon for active operations. The efficiency of these might possibly rival, but, most assuredly, would not surpass the effectual strength and discipline ordinarily displayed by the "Mulligan Guards." These Fenian "troops," as they are strangely enough designated, are scattered from New York to San Francisco. Should it be possible for them to be concentrated at any one point on the border they would at best be but a sorry, undisciplined host, with Falstaffian ranks and Quixotic leaders. If they should perchance win in any encounter, it would be a stumbling into victory, through the blunders and the weakness of their adversaries.

In opposition to their movements the Fenians will first find the United States Government, with all its civil and military power. The treaties existing between our country and England compel us to use all our forces to prevent the invasion of Canada from our side of the line by armed bodies of men. So that, the bold Fenian must first run the gauntlet of our laws, defying the authority of our government, before he can begin operations against his enemy. If President Hayes does his duty, firmly and with an iron hand, it is hardly probable that more than a mere handful of reckless invaders will put foot on Canadian soil.

But even supposing that the entire Fenian army, say 25,000 men, should get across the border, they would be as certain to be whipped out of their boots as that two and two makes four. The Dominion of Canada has a regular army of three thousand men. It has an Active Volunteer Militia, the advance guard of its forces numbering forty-three thousand men, fully armed and equipped, and pretty well drilled. This force consists of 37,000 infantry, 4,000 artillery, and 2,000 cavalry. Then there is the Reserve Militia, comprising 655,000 men, duly regimentalized and in some measure efficient. In round numbers, the total force by law liable for the defence of the country is 700,000.

What could a few thousand wild Irishmen do, assailing a country with such a force as this? Would not the attempt be suicidal in the extreme? In case of war between Russia and England, the former power would lend the Fenians assistance, and might give the Canadians some trouble; but even with a helping hand from the Czar, the Mulligan guards would be able to accomplish nothing beyond a few unprofitable raids into Canadian towns. No permanent success could be achieved by them.

Persons and Things.

The net earnings of the Alabama penitentiary for the year ending September 30, 1877, were $27,748.93.

It is said that a private watchman snores louder than a regular policeman, but this doubtless a slander.

It would rather be right than President," said Henry Clay. Hayes is of an altogether different sort of clay.

It is said that Ben Butler's decoration day speech at Gettysburg will be wonderfully liberal to the South and Southern People.

A. Decanter is the name of a confectionery man at Fort Howard. It is the Iron Port's "opinion," that he has missed his occupation.

This country would like a photograph of Postmaster-General Key taken at the moment when he is asked to contribute to the Republican campaign fund.

"One must live," said a London brawling demagogue of himself to Lord Chesterfield. "I don't see the necessity of it," said his lordship.

The Pennsylvania Record and Shoemakertown Advertiser and Jenkingtown Pestle, is published in Shoemakertown Pennsylvania, and the space that is not occupied by the name is filled with choice literature.

The Congressional Republican managers are preparing to play a game on Mr. Hayes that it would be just like him to despise. They propose to ask the President to help along civil service reform by contributing $5,000 to the party campaign fund.

"Summer thunder" is what the New York *Herald* calls the reports of Communists' preparations in the principal cities. But unless Congress wakes up to the necessities of the time the "summer thunder" may be accompanied with something much more dangerous than heat lightning.

A feeling of anxiety exists in political circles in Mexico. Senors Vallarie, Minister of Foreign Relations; Tagle, Minister of Justice, and Garcia Cadenna, Minister of the Interior, were elected judges of the National Supreme Court Afterwards President Diaz appointed them members of his Cabinet, and now they are called upon to resign one position or the other.

The steamers sailing from New York for Europe on Saturday were the Germanic and Queen for Liverpool, the Wesser for Bremen, the Devonia for Glasgow, the Aragon, for Bristol and the Oranto for Hull. Over 500 saloon passengers went out. The grain shipments aggregated 300,000 bushels. Among the other freight was a large number of horses for England, 585 bags of coffee, 225 mowers and 50 reapers for Germany.

The Court of Claims holds that the eight-hour law does not regulate the compensation to be paid to employes, but leaves that to be determined by the contract of the parties or the rules of law, and that it does not place laborers and merchants under any disability in making contracts, nor prohibit them from working more than eight hours each calendar day, nor in any way prevent them from waiving its intended beneficial provisions.

While the North is studiously exercised over the proper solution of the tramp question, the South, with that keenness of action peculiar to warm climates, has struck it thoroughly. Near Oxford, Mississippi, a tramp entered the house of a planter and asked for something to eat, and, as the lady of the house turned to the sideboard, he struck her with an axe. The neighbors pursued the striker, caught him and hanged him. He tramps now in another country.

A Tranquil Nervous System

Can never be possessed by those whose digestive and assimilative organs are in a state of chronic disorder. Weak stomachs make weak nerves. To restore vigor and quietude to the latter, the first must be invigorated and regulated. The ordinary sedatives may tranquilize the nerves for a while, but they can never like Hostetter's Stomach Bitters, remove the causes of nervous debility. That superb invigorant and corrective of disordered conditions of the alimentary organs has also the effect of imparting tone to the nerves. The delicate tissues of which they are constituted, when weakened in consequence of impoverishment of the blood, resulting from imperfect digestion and assimilation, draw strength from the fund of vitality developed in the system by the Bitters, which imparts the required impetus to the nutritive functions of the stomach, enriches the circulation, and gives tone and regularity to the secretive and evacuative organs.

The orchestra of Wallack's Theatre, New York, is famous for its extraordinary precision. This is due entirely to Thomas Baker, an Englishman, who has conducted it for years. The Board has been in session for a day or so past. The ordinary routine business was transacted. Mr. J. M. Brower made application for 50 convicts to work on the Mount Airy Narrow-Guage Railway. These were granted him, and as soon as they are on hand that number will be sent. He is now erecting shanties for their accommodation.

The Board adjourned, having transacted all business to date.

When the appetite fails, and headaches, with constipation of the bowels, the liver is out of order, and no medicine gives such prompt and permanent relief as a few doses of Dr. Pierce's Pleasant Purgative Pellets.

The 20th of May.

This day is to be observed all over the State, as a holiday. The white troops of the State Guard are under orders to parade. The day is our State "Independence Day," and its observance should be general. It should be made ever an occasion for rest and recreation. Coming as it does at a delightful season of the year, and needing holidays as we do, there are no reasons why it should not be properly celebrated. Even an addition to the pleasures of the day a suggestion is made that a ball be given in the evening. This can be made enjoyable by the hearty co-operation of our young men. There is no mention now of any hop until that at Chapel Hill, so this would come in well in the interval.

The D. D. & B. Asylum.

The members of the Grand Lodge of Odd Fellows visited the Deaf and Dumb Asylum yesterday afternoon. They were shown through the Institution, and the methods of teaching, the exercises of the pupils, were exhibited and explained. The visitors are gratified by their examination of the Institution.
